SHELTIE QUOTE

Ask and find out: Where does the breed come from? Why the name? Why does it have the particular shape it has? What was its original purpose? What have been the changes -- good and bad -- that have developed over the years? Above all, find the essence, the soul of that particular breed. Know all this -- look for it -- find it and reward it. Then you will be judging the breed from a platform of knowledge, and your choices will be instrumental for the betterment of the breed now and in the future.
